9:30 AM - 11:30 AM Appointment: _____

At the Workshop you will be given the opportunity to execute a Power of Attorney for Health Care Decisions. This document gives up to 3 people the authority to make health care decisions for you if you are unable to make medical decisions. These individuals are called your Agents. In the Health Care Power of Attorney, you will give written instructions to your Agent as to what you would want to see happen if you are unable to communicate with your healthcare providers. If that occurs, your Agent will have the authority to talk with your healthcare providers and make decisions regarding your medical care and treatment. Having this Power of Attorney for Health Care Decisions can in many instances prevent the need for an expensive and time-consuming guardianship.
